

Day 1 :17-08-2018

08:30 - 08:40	Inauguration, Welcome Address & About IFICS
08:40 - 09:15	Session 1: Basics of Fracture in Children
08:40 - 08:48	We are not small adults
08.48 – 08:56	We can straighten our bones (Remodeling)
08:56 - 09:04	That wasn't fracture (Mimickers)
09:05 – 09:15	Fix it or leave it quiz
9:15 - 10: 30	Session 2: Femur/ Tibia fractures in Children
09:15 - 09:20	Outline of treatment of Femur Fractures in Children (All Age groups)
09:20 - 09:28	Place of non-operative treatment in 2018 Indications Technique and Cautions
09.28- 09.32	Video spika technique
09:32 - 09:40	Elastic nails: Where they work and where they won't
09.40 – 09.44	Video elastic nail
09:44 - 09:52	Role of plating, interlocking nails and Ex-fix
09.52 – 09.56	Video bridge plating/ Pediatric femoral nail
09.56 – 10.04	Other long bone fractures: Tibia, Humerus – tricks of the trade
10.04 - 10:30	Case Discussion and summary
10:30 - 10:50	Coffee Break
10:50 - 11:30	Session 3: Femoral Neck Fractures
10:50 - 10:58	ABCD of Femoral Neck Fractures in Children (All Age groups)
10:58 - 11:10	How to minimize complications while managing acute fracture of neck femur in children
11:10 - 11:30	Case Discussion on managing late presentations, nonunions and complications and Summary
11.30 -12.30	Session 4: Physeal Injuries
11:30 - 11:35	ABCD of physeal injuries
11.35 - 11.48	Principles of management of acute physeal injuries: 10 principles of getting it right
11.48- 11.52	Video Fixation of acute physeal fracture
11.52 – 12.00	Physeal Bars: How to suspect,diagnose and manage
12.00 – 12:30	Case Discussion and Summary

12.30 – 13.00	Session IFICS Oration: Evolution of pediatric fracture care : of plaster, pins, nails, and plates:
13.00 – 13.45	Lunch with lunchtime workshop
	TENS
	Proximal femur locking plate
1:45 - 5:30	Live Surgeries

Day 2 : 18-08-2018

08.00 – 08.30	Delegate prize case session
08:30 - 09:30	Session 7 Supracondylar Show
08:30 - 08:35	Grade 1 and 2 : not as easy as it looks
08:35 –08:40	Standard supracondylar How I pin it
08:40 - 8:45	Pulseless supracondylar: How do we manage at Cincinnati
08:45 - 8:50	Pulseless supracondylar: How do we manage at Coimbatore
08:50 - 08:55	Supracondylar with nerve injuries
08:55 - 09.00	Delayed presentations
09.00 – 09.05	Stiff supracondylars
09.00 - 09.15	<p>Bag of tricks</p> <ol style="list-style-type: none"> 1. Viraj on suction tube 2. Shital on posterior intrafocal 3. Alaric on anterior intrafocal 4. Sandeep on wooden board 5. Venkat on proximal pin
09.15 – 09.30	Supracondylar that took my pulse away (3 speakers)
09.30 – 09.45	Open mike Ask anything on supracondylar fractures

9:30 - 10:30	Session 8 Lateral Condyle Fractures
9:30 - 9:35	ABCD
9:35 - 10:05	How do I manage
	1. Crack: Apparently undisplaced/ minimally displaced:
	2. Split: Gap more than 2 mm but not turned around
	3. Tilt: Completely displaced
	4. Early late presenters
	5. Late presenter with nonunion and cubitus valgus
	6. Tardy ulnar nerve palsy
10.05 - 10:30	Case discussion with audience participation: Lateral Thinking on Lateral condyle fracture
10:30 - 10:50	Coffee Break
10:50 - 11:40	Session 9 Other Elbow Injuries
10:50 - 11:00	Do not neglect the TRASH:
11:00 - 11:20	Case discussions:
	1. Missed and misdiagnosed: medial condyle and complete physal separation
	2. Medial epicondyle
	3. Paediatric Capitellar Fractures
11.20 – 11.40	Neck twisters: Case discussion on pediatric Radial neck fractures
11:40 - 12:10	Session 10: Forearm Fractures & Distal Radius
11:40 - 12:10	Flash five
	Distal radius
	Greenstick forearm
	Plastic deformation
	World class plaster
	TENS
	Malunited forearm
12.10 – 12.00	IFCS Master Class: Patello femoral joint

12:10 – 13:00	IFICS Master Class: Patello femoral joint
13:00 - 13:45	Lunch with Lunch time workshop Proximal femoral Plates
	TENS
	Proximal femur locking plate
1:45 - 5:30	Live Surgeries
7:00 PM	Conference Dinner

Day 3: 19-8-2018

08.00 – 09.00	IFICS Masterclass Monteggia Lesions in children
08.00 - 08.05	1. ABCD of Monteggia
08.05 - 08.15	2. Staying away from trouble in managing acute Monteggia
08.15 - 08.20	3. Late presenting Monteggia should we treat these
08.20 - 08.28	4. Techniques: Step cut osteotomy
08.28 - 08.36	5. Techniques : Osteotomy with reconstruction
08.36 - 09.00	6. Case discussion and summary
09:00 – 10:00	Knee and ankle injuries in children
09.00 – 09.05	1. ABCD of lower femoral and Upper Tibial fractures
09.05 – 09.10	2. Fractures distal femur:
09.10 – 09.15	3. Fracture tibial spine
09.15 – 09.20	4. Fractures upper tibia
09.20 – 09.25	5. Fracture patella
09.25 – 09.30	6. Physeal injuries of lower tibia fibula
09.30 – 09.35	7. Triplane and tillaux fractures
09.35 – 09.40	8. Ligament injuries around knee
09.40 – 09.45	9. Ligamentous injuries to ankle and foot
09.45 – 10.00	10. Case discussion and summary
10.00 – 10.20	IFICS Updates
	My experiments with articular cartilage
	IFICS Research

10:20 - 10:40	Coffee Break
10.40 – 11.30	IFICS Symposium Adolescent Fractures
10.40 – 10.45	Adolescent fractures why are they different
10.45 – 10.50	Adolescent femur fractures
10.50 – 10.55	Clavicle fractures in adolescents
11.00 – 11.05	Adolescent elbow injuries
11.05 – 11.10	Adolescent forearm fractures
11.10 – 11.30	Adolescent fractures in India and USA: Different ways to treat same injury
11.30 – 12.00	Session 5: IFICS ICL: what should a general orthopedist know about
	Hand injuries in Children
	Spine Injuries in Children
	Pelvic injuries in children
	Open fractures in children
12.00 – 13.30	IFICS 2018 Closing session WWW What went wrong : My best learning case (Faculty to discuss their best case - 5 min per faculty)
