Ganga Operative Arthroplasty Course 2023

Dear Trade Partners ,

We have great pleasure in inviting you to the 9th Ganga Operative Arthroplasty Course between 4th - 6th August 2023, to be held at Ganga Hospital, Coimbatore. The acceptance of joint replacement surgery in Indian patients is fast increasing, with more and more severely arthritic patients benefiting from this procedure. While the quality of Life dramatically improves following surgery, the patient's expectations from the surgical procedure are also increasing. The outcome is heavily dependent on surgical technique and it is very important to learn the art and science from the masters in the field.

The Ganga Operative Arthroplasty Course is one of the most sought-after academic courses allowing delegates to witness masters perform complex joint replacement procedures. This year, we are organizing the 9th Course, and it will feature 30 replacement surgeries covering the entire spectrum of arthroplasty transmitted live. These surgeries will be performed by renowned International and National stalwarts in Arthroplasty, who will share their wealth of experience and tips on avoiding complications and improving patient outcomes. The course will highlight the latest advances, including Robotic-assisted surgery, 3-D printing, planning for complex revisions, periprosthetic joint infections, and debates on controversial topics.

Coimbatore, a medical hub, is well-known for its educational institutions, pleasant weather, and excellent hospitality. It is also the gateway to famous hill-stations and attractive tourist destinations.

We look forward to hosting you in Coimbatore in August 2023.
